

Cinema Series:

Office Robot Opportunities for Business Change Professionals

Want to upskill yourself in the new digital world in a new way?

Alternatively, you could use the old way and:

- Attend a world class, nearly sold out, once in a lifetime conference?
- Sit in a masterclass, surgery or breakout listening to someone who has 10 minutes more experience than you big it up?
- Part with several hundred pounds, only to be hounded by consultancy companies and software providers.
- Or learn something new in a complimentary Cinema Series event.

As a business change professional, the topic of Robotic Process Automation (RPA) will impact your work at some point, if it is not doing already. Join us, to find out how you can play your part.

We want to give you the opportunity to meet some robots and help you understand how business change professionals will need to step up and support this new world.

So, what does Voyager know about this, and why should it share the knowledge?

At Voyager Solutions, we live by our core principles of developing talent in everyone and openly sharing our knowledge.

We have been involved in the RPA world for 3 years, primarily across 7 clients, so would be happy to talk to you about the history.

Cinema Briefing Sessions:

- **Immerse the audience in a highly relevant hot topic**
- **Provide a mixture of video, presentations and demonstrations**
- **Require a time investment no longer than the average film**

All you need to do is show up, meet some new people, and hopefully learn something.

The events are free, taking place across 3 UK locations, and have absolutely no small print or terms and conditions attached.

See us at:

9am - Curzon Cinema, Aldgate, London - 1st December 2017

9am - Curzon Cinema Knutsford - 8th December 2017

Coming Soon – Birmingham January 2018

Events will close at 12pm.

Please contact Louise Kennedy via louise.kennedy@voyagersolutions.com if you would like to attend.
